Dear Paul:

On May 13, 2004, I transported a Case W-14 loader to the county road near the Peacock Quarry. With the help of two laborers, we placed rocks and dead juniper branches on the access roads leading to and below the quarry.

This work that we performed will make it very difficult for 4 wheel vehicles to approach the quarry.

Please note the enclosed photographs, and let me know if you have any questions or further requirements.

Thank you for help, time, and consideration on this matter.

Sincerely,

Tim Thomas  
Vice President, Thomas Excavating, Inc.
